

NaCLO for Africa second edition

Hygiene as an essential health requisite for the development in low and middle income countries - Challenges and Outcomes

Scientific Symposium

6th October 2023 | 09:00am - 1:00pm

WHAT

Scientific-institutional Symposium:

Health challenges brought to Africa by the **impoverishment of health systems**, the resurgence of **endemic diseases** or **those that were considered eradicated** and that may become a real threat even to high income countries. To address these challenges, we will also look at how **scientific dissemination, skills transfer and the grounding of disinfection practices** can be part of the solution. In this context, the impact of the difficulties in operating in extremely diverse cultural and social environments must be taken into account.

Results achieved by **transferring skills in hygiene training and protocols** and improving **procedures for sanitizing** surfaces, equipment, environments, hands, food and water in order to **prevent the spread of pandemics and diseases**.

Presentation and examination of some **case histories**: interventions carried out in several African countries with **NaCLO30 devices**, which demonstrate that the practice of disinfection is to be considered an indispensable necessity for the health safety of local populations.

Country Focus - Guinea Bissau: starting from this edition we aim to examine the social and health conditions of individual African countries. This year we will try to concretely analyse the health challenges posed to the **"Country System" of Guinea Bissau**.

On the sidelines, we will discuss how the resurgence of **Tuberculosis** is a real challenge or threat today and we also present a special case history dedicated to **Ukraine**.

SCIENTIFIC COMMITTEE

President

Dra. Robalo Correia e Silva Magda - President Institute for Global Health and Development; Vice-Chair of the Ethics and Governance Committee and Alternate Board member of the Global Fund to Fight AIDS, Tuberculosis and Malaria; former Director of the Communicable Diseases Cluster (CDS) at the Regional Office for Africa of the World Health Organization (WHO) and Minister of Health and Covid-19 High Commissioner of Guinea Bissau.

President Emeritus

Prof. Corrocher Roberto - Prof. Emeritus of Internal Medicine, University of Verona; Member of the Scientific Committee of Soc.It.Med. Int. (S.I.M.I.); Inspirer of the Madrugada Campus in Bissau (Guinea Bissau), chosen by WHO for Health Training for pandemic prevention and as an anti-COVID-19 vaccination hub.

WHO SCIENTIFIC COMMITTEE

HOW

Members

Dr. Accardi Andrea - Senior Project Coordinator Humanitarian Organization INTERSOS, Responsible for the immunization programs on COVID-19 in Yemen and Nigeria, Advisor for Sahel and West Africa; former extensive experience in coordinating health programs for forced displaced population (Balkans with UNHCR; MSF, Head of Mission in Italy, Malaysia and Libya); Master of Science degree, London School of Economics and Political Sciences.

Prof. Contini Sandro - Former Associate Professor of Surgery at the Department of Surgical Sciences, University of Parma; WHO consultant (2008) for the Global Initiative for Emergency and Essential Surgical Care (GIEESC); Former Senior Surgeon of the International Committee of the Red Cross (ICRC), Médecins sans Frontières and the Italian NGO Emergency.

Prof. Costantino Gabriele - Full Professor of Pharmaceutical Chemistry and Toxicology, University of Parma; Director of the Department of Food and Drug Sciences, University of Parma; Reviewer for European Commission projects (FP6, FP7, H2020) and for European funding agencies.

Prof. Mamane Hadas - Head of the Environmental Eng. Program and the Water-Energy (WE) Lab at Faculty of Eng. Tel Aviv University, Israel; Ph.D. at Duke University, USA; Her research centers around ultraviolet disinfection, advanced oxidation, and decentralized, point-of-use systems to ensure safe water and effective sewage treatment in rural areas

Dra. Pecorari Luisa - Master's Degree in Pharmaceutical Biotechnology - Ph.D. Experimental and Clinical Oncology (Oncology Centre of Modena); Specialised in Molecular Oncology (2006) also working at Kimmel Cancer Center (Thomas Jefferson University - Philadelphia); former scientific senior consultant for Project "POR FESR 2014-2020 Asse 1 - Azione 1.1.4 e 1.2.2, call for "progetti di ricerca e innovazione industriale per soluzioni di contrasto alla diffusione del Covid19"; former Manager for ABP Pilot Plant (FP7 European Project), at Tydock Pharma srl, Modena University spin off; Board member and Head of molecular biology at Tydock Pharma Srl; CEO at OPHERA Srl.

Dr. Ricco' Matteo - Specialist in Occupational Medicine, Hygiene and Public Health; Medical Officer, Service for Occupational Health prevention and Safety in the Workplaces, AUSL-IRCCS of Reggio Emilia AUSL; Teaching assignment at the Italian College of Osteopathy, Parma: Hygiene and Public Health - Microbiology and prevention of infectious diseases; Tutor at the School of Specialization in Occupational Medicine, University of Parma.

The event will be led by a moderator and featuring live or remote testimonies, videos and presentations.

PROGRAM

9:00- 9.30 a.m.

Participants registrations and coffee

09.30-09.45 a.m.

Introduction and greetings from local institutions

09.45-10.45 a.m.

- The health challenges posed in Africa by the impoverishment of health systems and the resurgence of diseases that were considered eradicated

10.45 a.m. -12.15 p.m.

- Case histories: Senegal, Benin, Burkina Faso, Sierra Leone, Democratic Republic of Congo, South Sudan, Guinea Bissau, Tanzania.
- Special case history: Ucraina

12.15 p.m- 1.00 p.m.

- Country focus: Guinea Bissau

1.00 p.m.

- Lunch and Labirinto della Masone tour

WHY

WHO GUESTS

To illustrate the results achieved by the NaCLO project in one year of activity and, once again, to convey to the participants the conviction that, in order to act effectively in these contexts, it is necessary to team up and share information, knowledge, operational practices and results.

INSTITUTIONS:

- Stop TB Partnership
- AICS - Italian Agency for Development Cooperation - Ministry of Foreign Affairs and of International Cooperation
- Tanzania Embassy
- Emilia Romagna Region
- Municipality of Parma
- Diocese of Parma
- University of Tel Aviv
- University of Parma
- University of Verona
- University of Dakar
- AUSL Reggio Emilia
- Industrial Union of Parma
- Parma Chamber of Commerce

MODERATOR

- Prof. Gabriele Costantino - University of Parma

SPEAKERS

- Prof. Roberto Corrocher - University of Verona
- Dra. Magda Robalo Correia e Silva - Institute of Global Health and Development
- Dra. Lucica Ditiu - Stop TB Partnership
- Prof. Hadas Mamane - University of Tel Aviv (Israele)
- Dr. Matteo Riccò - AUSL Reggio Emilia
- Dr Andrea Accardi - INTERSOS ONG
- Dra. Luisa Pecorari - Pharmaceutical Biotechnologist
- Dr. Massimo Salvadori - Chiesi Foundation Onlus
- Dr. Luca Iotti - ONG Bambini nel Deserto Onlus
- Dra. Laura Ladavas - Amici di Marco ETS
- Dra. Tiziana Bernardi - Golfini Rossi Onlus
- Dr. Maurizio Misitano - Fondazione Agostiniani nel Mondo
- Dr. Giovanni Spaliviero - MUSOCO Onlus
- Ing. Lamine Ndiaye - Associazione MANI APS
- Dra. Bineta Gueye - FEEDA SENEGAL ONG (Senegal)
- Padre Alberto Zamberletti - Fondazione PIME Onlus
- Dra. Alessandra Moseriti - ES-KO
- Dra. Paola Magni - AMREF
- Dr. Geraldo B. Monteiro - Campus Madrugada Bissau (Guinea Bissau)
- Dr. Giorgio Parise - Associazione per la Collaborazione allo Sviluppo di Base della Guinea Bissau di Verona - Onlus
- Dr. Andrea Zito (CEO) - Swan Hellenic
