

UNIVERSITÀ  
di **VERONA**

**PhD Day 2020**  
**Course in Inflammation, Immunity and Cancer**

*Verona, January 29th, 2020*  
*Room D, "Istituti Biologici", University of Verona*

**9.30 - 9.45 Opening remarks**

**9.45 - 10.55 SESSION 1**

*(Chairs: Jessica Conti, Matteo De Pastena)*

**CYCLE XXXIV**

9.45 - 9.55 **Stefano Andrianello**- "Pancreatic jejunostomy vs pancreaticogastrostomy with externalized stent in patients with high-risk pancreatic anastomosis: A single-center, phase 3, randomized controlled trial"

9.55 - 10.05 **Francesca Pettinella**- "Transcriptional and molecular analysis of immunosuppressive neutrophils from g-csf treated donors"

10.05 - 10.15 **Nicola Lopez**- "A role for TIM-1 in neutrophil-dependent inflammatory response"

10.15 - 10.25 **Alessandra Pulvirenti**- "Title: to be communicated"

10.25 - 10.35 **Roza Maria Barouni**- "Neutralizing human arginase 1 to enhance cancer immunotherapy"

10.35- 10.45 **Anna Slanzi**- "Neuroimmune interactions in models of neurodegeneration"

10.45 - 10.55 **Cristina Frusteri**- "Modulation of immuno-suppressive MDSCs by regulation of c-FLIP related genes"

**11.00- 11.30 COFFEE BREAK**

**11.30 - 12.40 SESSION 2**

*(Chairs: Elisa Bannone, Elena Fiorini)*

**CYCLE XXXIV**

11.30 - 11.40 **Bruno Miguel Dos Santos Lima**- "Understanding the profile of neutrophils in Alzheimer's Disease"

### **CYCLE XXXIII**

11.40 - 11.55 **Laura Maggino**- "Number of harvested lymph nodes and stage migration effect in pancreatoduodenectomy for pancreatic ductal adenocarcinoma: reappraising the standards based on the eighth edition of the american joint committee on cancer (ajcc) staging system".

11.55 - 12.10 **Christian Boni**- "A new, non denaturing, method for inhibition BCR-ABL1 and other kinases degradation in primary leukocytes: new perspectives for kinome analysis in CML patients."

12.10 - 12.25 **Chiara Musiu**- "Role of tumor-derived exosomes on reprogramming myeloid cells"

12.25 - 12.40 **Francesca Simionato**- "A Phase II Study of Liposomal Irinotecan (nal-IRI) with 5-Fluorouracil, Levofolinic Acid and Oxaliplatin in Patients With Resectable Pancreatic Cancer: The nITRo trial"

### **12.40 – 14.15 LUNCH (not provided)**

### **14.15 – 15.15 SESSION 3**

*(Chairs: Gabriele Angelini, Stefano Adrianello)*

### **CYCLE XXXIII**

14.15 - 14.30 **Matteo De Pastena**- "Wound protector dural-ring Alexis® in Pancreaticoduodenectomy: a randomized single-blind controlled clinical trial (PALEXIS trial)"

14.30 - 14.45 **Natalia Troianova**- "Phenotypical, molecular and functional characterization of circulating leukocytes in Chronic Obstructive Pulmonary Disease (COPD)"

14.45 - 15.00 **Elena Fiorini**- "Activation of V cell intrinsic immune-related program during progression of PDA and eCC"

15.00 - 15.15 **Silvia Iaia** "Protein Arginine Deaminases (PADs): novel mechanism of leukocyte trafficking"

### **15.15 - 15.45 COFFEE BREAK (only beverages will be provided)**

### **15.45 - 16.45 SESSION 4**

*(Chairs: Camilla Zecchetto, Roza Maria Barouni)*

### **CYCLE XXXII**

15.45 - 16.10 **Fabio Bagante**- "Integrating Clinical Data and Molecular Profiling of Hepato-Pancreato-Biliary Cancers: a surgical-pathological Approach"

16.10 - 16.35 **Giulia Iannoto**- "A role for T cells in the induction of memory deficits in mice with Alzheimer's-like disease"

16.35 – 17.00 **Francesca Hofer**- "Unveiling the role of DAB2-expressing macrophages in supporting the metastatic spread"

### **17.00 - 17.10 Closing remarks**

### **17.10 CLOSING COCKTAIL AND BUFFET OFFERED BY THE PhD COURSE**
